

# SAPONE SEALER

technical data sheet

February 2010

Protective sealer for interior glossy lime and resin based plaster finishes

**SAPONE SEALER** is a protective ecological water-based sealer for interior wall surfaces. **SAPONE SEALER** is composed of genuine soapstone and additives in a homogeneous blend.

## PROPERTIES

- breathable VOC: 0 g/l if uncolored
- ready-to-use
- easy-to-use
- water-repellent
- anti-stain and wash-resistant
- perfectly transparent or can be tinted
- specific gravity:  $0.66 \pm 0.02$  Kg/l
- environmental temperature  
min +5°C, max +30°C
- pH:  $7.5 \pm 1$
- normal yield:  $30 \div 60$  glm<sup>2</sup>

## PURPOSES

**SAPONE SEALER** is ideal to protect all **RIALTO** and **VERO** finishes including **RIALTO ANTIQUA**, **RIALTO NLP**, **RIALTO EPOCA SPATOLATO**, **RIALTO EPOCA MARMO**, **VERO MARMORINO BLEND**, **RIALTO EPOCA OTTOCENTO**, **RIALTO SOLUTION**, **RIALTO EVOLUTION**, **RIALTO VENEZIANO** and **RIALTO VELASIL**.

*Long Beach, California*

**SAPONE SEALER over EPOCA MARMO V-2081**

## WORKING INSTRUCTIONS

Let the surface dry out for at least **48 hours**, then spread a thin coat of **SAPONE SEALER** with a chrome trowel or “buff on with rag” using small circular motions. Wipe off any excess soap with clean cotton rag and burnish with trowel to see the movement of the finish cast on the wall. Wait further **48 hours** and rub the surface with a cloth to remove any soap dust. If blemish occurs and removal is necessary, lightly sand down the sealer using 300 grit sandpaper making area look like a matte finish. Wipe down with damp cloth and let dry. Treat as first coat, apply finish then let dry. Burnish second coat using a chrome trowel and let dry. Apply **SAPONE SEALER** as top coat and let dry.

- when applying **SAPONE SEALER** to more porous finishes like **RIALTO ANTIQUA, RIALTO NLP, RIALTO EPOCA MARMO, and VERO MARMORINO BLEND**, the base color will lighten. You can dilute the sealer 20% with water, but test a section of the wall or sample board to approve desired look. Note: If **SAPONE SEALER** is used straight out of the can it will give the base color a cloudy effect if used over **RIALTO ANTIQUA, RIALTO NLP, RIALTO EPOCA MARMO, and VERO MARMORINO BLEND**
- if you wish to add metallic powders, dilute powders 20% with water then mix into the **SAPONE SEALER**
- when applying **SAPONE SEALER** to **RIALTO SOLUTION, RIALTO EVOLUTION, RIALTO VENEZIANO**, and all **RIALTO** Metallic Finishes, the base color darkens
- when **SAPONE SEALER** is applied to **RIALTO EPOCA SPATOLATO**, the base color remains true to its original tint and gives a matte, satin sheen
- ensure adequate ventilation during application
- avoid contact with skin and eyes: if contact occurs rinse thoroughly with water
- do not handle any flammable goods while using this product
- check with your local department of environmental quality for disposal requirements and recycle whenever possible

### **Environmental Partnership:**

*Our products were manufactured in an environmentally compatible manner. Vero reminds you to properly handle and dispose of all materials in accordance with regulations established in your area. Caring for our environment is best achieved when we do it together.*

## COVERING CAPACITY

The average covering capacity is:  
1 kg - 300 sq. ft.  
4 kg - 1200 sq. ft.

## PACKAGING

**SAPONE SEALER** is available in 1 kg (2.25 lbs.) and 4 kg (9 lbs.) containers.

## COLOR RANGE

**SAPONE SEALER** is available in its standard clear form and can be tinted with metallic powders and water-based tints.
